Testimony

2019

One month magically passed, turning me from strangeness to yearning. I do appreciate everyone who I met in the summer school, teachers, buddies, classmates, friends... thank you for the cherished time we had, and happiness you brought to me, thanks.

- Alex, Hong Kong Polytechnic University

2018

Personally, it was the people with whom I spent the time left me the most profound impression instead of modern conglomerate, historic temples, etc. In this program, it is literally inspiring that you will befriend people with distinct background but the same passion, positivity, sincerity and simplicity. Thanks 2018-KISS!

- Kasch GUO, University of Hong Kong

2017

This summer KISS filled me with affluent knowledge, enthralling culture experience, indelible joy, and awesome friends from all over the world. I am also filled with gratitude to be a summer exchange student in KAIST.

- Chan Wing Yu, The Hong Kong University of Science and Technology

These four weeks were life-changing and one of the best months in my travel journal. It was a privilege to study at KAIST with the adept academic staff and brilliant peer students from all over the world. At last but not least, I'm pleased to offer credits to one and all who contributed for the outstanding success of this exchange.

- Kasun Kalhara, Queensland University of Technology
